

17 October 2024

Elon Olsson
NASA Goddard Space Flight Center
Community Coordinated Modeling Center
Greenbelt, 20771, United States

REF: AGU24

Abstract ID's: 1556215, 1637325, 1638608, 1746657

Abstract Title's: Explore space weather and the Heliophysics Big Year (HBY) through storm narratives using Community Coordinated Modeling Center's (CCMC) hands-on tools; Experience the May 2024 Geomagnetic Storm with OpenSpace, CCMC, and Aurorasaurus Citizen Science Reports; Lowering Barriers to Science and Space Weather Research at the Community Coordinated Modeling Center (CCMC); Navigating the Future: CCMC's Role in NASA's Evolving Science and Data Ecosystem

Dear Elon Olsson,

Thank you for submitting an abstract for consideration for AGU24. The abstract referenced above has been accepted for presentation at the AGU24 Meeting. This meeting will have both an in-person and virtual format. The meeting will be held on 9-13 December 2024, with in-person events taking place in Washington, D.C., USA. In order to meet international travel arrangements, we are extending the period of our invitation from 8 to 14 December 2024.

This letter serves as an invitation for you to attend AGU24 and to request an expedited visa appointment, if applicable. The abstract submission period was open from 12 June 2024 until 31 July 2024 and letters of notification will be distributed by email in early October 2024 confirming acceptance of the abstract.

AGU's annual meeting is the largest and most influential event in the world dedicated to the advancement of Earth and space science. Every year, AGU unites the Earth and space science community to share findings, connect like-minded scientists from around the world, and advance our profession and shared passion for the impact of science. The meeting convenes thousands of researchers, scientists, educators, students, policymakers, science enthusiasts, journalists, and communicators who are driven to better understand our planet and environment, and our role in preserving its future.

AGU24 is open to all those with related interests in the Earth and space sciences. It is a results-oriented gathering rooted in celebrating and advancing positive individual and collective outcomes. The AGU24 meeting program is designed to foster an inclusive scientific culture through:

- Solution-focused content in a rapidly changing environment
- Meaningful conversations with government leaders and regulatory agencies
- Innovation from those in tech, publishing, and space exploration
- Learning from transformative leaders who have done groundbreaking research
- Experiential learning experiences
- Networking and community development
- Partnerships with other organizations and sectors to address scientific and societal challenges

This letter serves as an invitation for you to attend AGU24. The meeting is open to all those with related interests in the Earth and space sciences. Participation in the meeting includes attending sessions in your areas of interest and an opportunity to communicate with others working in the field of geophysical sciences.

This is an invitation to participate in the meeting, but not a personal sponsorship of your attendance in Washington, D.C. You will need to secure your own funding for registration fees and, if applicable, travel and housing expenses. Please refer to the AGU website for information at: <https://www.agu.org/annual-meeting>.

We look forward to your attendance at AGU24.

Sincerely yours,

Nicole Oliphant
